REPORT OF THE DEPUTY MINISTER.

The Right Honourable SIR RICHARD J. CARTWRIGHT, G.C.M.G.,
Minister of Trade and Commerce,
Ottawa.

SIR, —As in the previous year it has been found advisable to divide the report into two parts—Part I., Canadian Trade, and Part II., Trade of Foreign Countries.

As regards figures in Part I., they cover for the fiscal year only nine months, from July 1, 1906, to March 31, 1907, instead of twelve months to June 30 in all former reports and all previous years.

This change in the termination of the fiscal year rather interferes with the sequence of comparisons as heretofore shown in the statements of imports and exports since confederation ; but statement No. 5, page xxii, has been prepared, which shows the trade for twelve months to March 31, 1907, compared with the same periods for several preceding years.

The trade figures for the past year show a continuance of the annual increases which have prevailed for several years, a record of unprecedented progress in the onward march of the country.

The total imports and exports during the nine months covered by this report was \$465,063,204 as compared with \$550,872,645 during the previous year of twelve months, or \$399,797,020 during the corresponding nine months of the previous year ; or again the total trade during the twelve months to June 30, 1907 (unrevised figures), was \$617,964,952 as compared with \$550,872,645 as above.

As each industry has contributed its full share to the general advance, it does not seem necessary to quote figures but to refer direct to the numerous statements and compilations comprised in the report, which show for themselves.

Unrevised advance statement No. 4, page xx, of imports entered for consumption and exports for twelve months to the end of September, 1905, 1906 and 1907, is appended, and shows the continual rapid expansion of the trade of the country.

The report of the Superintendent of the Trade Commissioner Service also herewith demonstrates the utility of that branch of the service.

All respectfully submitted,

W. G. PARMELEE,
Deputy Minister.

October 22, 1907.

REPORT OF SUPERINTENDENT OF TRADE COMMISSIONER SERVICE.
OTTAWA, November 1, 1907.

W. G. PARMELEE, Esq., I.S.O.,
Deputy Minister,
Department of Trade and Commerce,
Ottawa.

SIR,—I have the honour to present herewith the Fourth Annual Report of the Canadian Trade Commissioner Service heretofore known as the Canadian Commercial Agency Service.

The change in the name of the service was made necessary by reason of the fact that the term ‘Agent’ signifies that the person so designated has something to buy or something to sell. This seriously militated against the usefulness of Canada’s foreign trade officers ; in fact, private firms frequently use the term ‘Commercial Agent,’ and it was also found that some commercial houses dealing largely in Canadian trade advertise themselves as ‘Canadian Commercial Agents.’

In future those officials who heretofore have been known as ‘Canadian Commercial Agents,’ but whose whole time has been devoted to the interests of Canada are to be known as ‘Trade Commissioners.’ All others who may be in business for themselves will retain the title of ‘Canadian Commercial Agents.’

WEEKLY REPORT.

The usual Weekly Report, containing the reports of the various Canadian Trade Commissioners and Commercial Agents and other information of importance, has been published regularly. There are now 2,400 copies sent out every week. This number does not include those sent to the members of the Senate and the House of Commons. Care is taken that this report is sent only to those who ask for it, and in that way the circulation is more judicious, and the expense that would be entailed in a larger edition is avoided.

TRADE INQUIRIES

The importance of the trade inquiries as published every week in the Weekly Report is evidenced by the fact that frequently addresses of various inquirers are requested by telegraph, and a great many firms have also instituted the system of inclosing in their letters stamped envelopes to be addressed by the department to the foreign inquirers. The total number of addresses of the trade inquiries mailed to interested persons in Canada has continued to show an increase, which is the greatest testimony as to their value.

TRADE INQUIRIES RECEIVED.

The reason for the above statements showing that apparently more addresses were furnished correspondents than were received since the Weekly Report was first published in 1904, is the fact that some of the same addresses are furnished to many interested applicants.

These statements only contain those inquiries which have been published, and interested firms found directly through the medium of departmental reports. The inquiries received and replied to in the ordinary correspondence of the Department are not included in the above statement.

SOURCE OF THE TRADE INQUIRIES.

It may be of interest to know the offices whence the Trade Inquiries emanated. The following table therefore is appended, which shows the number of Trade Inquiries received at the Department from January 1, 1907, to October 31, last.

DISTRIBUTION OF TRADE CIRCULARS.

In the last Annual Report reference was made to an innovation contemplated in the distribution of trade circulars in Newfoundland and Mexico, with a view, if possible, to increase trade inquiries from those countries. The circular in Mexico of course was printed in Spanish. In both countries referred to the distribution began shortly after

SESSIONAL PAPER No. 10

January 1, 1907. During the Calendar year 1906 we received only 7 inquiries from Mexico and none from Newfoundland.

Up to September 30 last of the present year we have received 61 inquiries from Mexico and 23 from Newfoundland. During this period these 61 inquiries from Mexico have been inquired for 328 times by various Canadian firms and others interested. Those from Newfoundland were sent out 49 times. This was the direct result of the trade circulars and shows their far reaching possibilities.

CORRESPONDENCE.

The correspondence of the Trade Commissioner Service abroad has increased to a very considerable extent. Apart from the letters received and despatched by this department on account of the Trade Commissioners Service, the total number of letters received and despatched from the offices of the various Trade Commissioners and Commercial Agents for the calendar year 1905, was 24,016, while for 1906 it was 33,898. Up to September 30 of this year the total was 23,769.

VISIT OF MR. A. W. DONLY.

Following the policy laid down by the Department, Mr. A. W. Donly, Canadian Trade Commissioner in Mexico, was recalled to Canada during the past summer for the purpose of visiting Boards of Trade and the commercial centres of the Dominion. Mr. Donly's return to Canada at this time was thought to be especially opportune in view of the fact that two direct services are now plying between Canada and the Mexican Republic.

Mr. Donly addressed many meetings and called personally upon many Canadian manufacturers from Halifax to Vancouver. Everywhere he met with encouragement, and some of the larger exporters promised to go themselves or send their representatives next winter to Mexico for the purpose of studying that market.

COMPLAINTS.

It is a pleasure to be able to state that few complaints reached this Department during the past year. They were, however, of a somewhat general nature, while some were more in the way of suggestions for improvement. The following—with pages in the Weekly Report—were the only cases referred to in the reports of the Trade Commissioners and Commercial Agents :—

'Ineffective labelling,' page 49 ; 'Cheese arriving in unsatisfactory manner,' page 96 ; 'Damaged butter and cheese,' page 103 ; 'Alleged bad packing,' page 104 ; 'Alleged salmon frauds,' page 140 ; 'Lack of attention to details,' page 220 ; 'Cheese shipped in green condition,' page 469 ; 'Slow delivery of goods,' page 581.

Of course it is not possible in a nation's trade to be free from complaints of various kinds. The Consular Agents of every country in the world are continually lecturing their countrymen upon this subject. In some instances their strictures are very severe. The cases, however, which have been brought to the attention of this Department have not been of a very serious nature.

LISTS OF CANADIAN EXPORTERS.

Five hundred copies of the 1907 edition of a well known list of Canadian exporters, which it is claimed is the most complete list of the kind ever published, were distributed all over the world through the Canadian Trade Commissioners and Commercial Agents and with the able assistance of British Consuls. The value of this publication has been commented upon very highly, and the demand was much greater than the supply.

7-8 EDWARD VII., A. 1908

TARIFFS OF PRINCIPAL COUNTRIES.

A Report containing the Tariffs of the Principal Countries of the World was published and distributed to those in receipt of the Weekly Report. Such a publication, however, was found to be scarcely practicable in view of the fact that the time required in compiling such a mass of details and the printing of it was such that before it could be distributed some of the Tariffs are very likely changed. In this instance the publication referred to was received at the Department only a few days after the Australian Government announced their new tariff.

ADVANCE INFORMATION.

Not infrequently the information published in the Weekly Report upon important trade subjects has been in advance of the same information published in the commercial reports of other countries. This is especially commendable upon the part of the Canadian Trade Commissioners and Commercial Agents in view of the fact that there are so few Canadian Trade officials as compared with the Consular and trade services of other countries.

AGENCY CHANGES.

The Department regrets to record the death of Mr. G. Eustace Burke, who since 1892 has been a Canadian Commercial Agent in Kingston, Jamaica.

Mr. E. A. H. Haggart who has for years been identified with Canadian Trade in the West India Islands has been appointed in Mr. Burke's stead.

I have the honour to be, Sir, your obedient servant,

F. C. T. O'HARA,

TERMINALS.

The nine elevators classed as terminals are owned and operated as follows :—

At Port Arthur, Ontario, the Canadian Northern Railway own two with a capacity of 3,750,000 and 3,250,000 bushels respectively, these are operated by the Port Arthur Elevator Company.

There is also at Port Arthur the elevator of Jos. G. King and Company with a capacity of 800,000 bushels.

At Fort William, Ontario, the Canadian Pacific Railway own and operate three, one of 3,500,000 bushels capacity, and two with a capacity of 2,500,000 bushels each.

The Empire Elevator Company has one of 1,750,000 bushels capacity, and Muirhead, Black and Company one of 25,000 bushels capacity.

At Keewatin, the Lake of the Woods Milling Company has one elevator of 550,000 bushels capacity.

The greater portion of the grain taken into the hundreds of smaller elevators in the west, and shipped from loading platforms at country points there, finds its way into these terminals at the lake front, and is shipped from there to its ultimate destination, the bulk going by vessel to Montreal and Georgian Bay Ports, although for the season of navigation 1906, over 15,000,000 bushels went to Buffalo, Port Huron and Erie.

The total shipments by vessel and rail from Fort William and Port Arthur since September, 1899, are shown elsewhere in statement No. 57.

COUNTRY ELEVATORS.

In the three provinces of Manitoba, Saskatchewan and Alberta (including three for British Columbia) there are 1,212 elevators ; two of these have a capacity of 250,000 bushels, one 240,000 bushels, one 225,000 bushels, two 150,000 bushels, one 125,000 bushels, one 120,000 bushels, one 110,000 bushels, one 108,000 bushels, and four 100,000 bushels capacity.

They run all the way from 4,000 up to 250,000, but the bulk of them are of 25,000 and 30,000 bushels capacity.

Excluding the 14 elevators that run from 100,000 upwards, the average for the remaining 1,198 would be 28,466 bushels.

WAREHOUSES.

The fifty-two warehouses operated during the year range in capacity from 3,000 to 20,000 bushels and have an average of 7,050 bushels. These warehouses are gradually decreasing in number and although only one less than last year are about one-half what they were five years ago.

INCREASE IN CAPACITY.

In summing the total net increase in capacity for 1906-7, viz. : 4,531,500 bushels, country elevators and warehouses have to be credited with an increase of 5,036,500 bushels, there being a decrease in the capacity of the terminals of 505,000 bushels.

AMOUNT INVESTED.

The total amount invested in terminals and country elevators and warehouses in the Manitoba grain inspection division is \$11,044,440.

QUANTITY OF WHEAT HANDLED.

It may be of some interest to the trade and to the people of Canada in general, to note that the total quantity of wheat handled by the country elevators and warehouses in the Western Provinces during the crop year ended August 31, 1907, was 65,034,671 bushels.

The elevator and warehouse licenses show a large increase this year (1906-07) over the preceding one, and the increase in Track Buyers' licenses is an evidence of the number of men engaged in this business.
It is desirable to again point out that all these license holders are bonded, the grain growers being thus secured against loss in the disposal of their products.

Returns from Prince Edward Island and Quebec not available.

This is the first occasion on which a complete and reliable statement is shown of the grain production of the Dominion of Canada, and, although it is regrettable that Quebec has not yet come into line with the other provinces, the total quantity, as shown, presents in a concise form Canada's wealth under this head.

REPORT OF THE DEPUTY MINISTER.

The Right Honourable,

SIR RICHARD J. CARTWRIGHT, G.C.M.G.,

Minister of Trade and Commerce,

Ottawa.

SIR,—The accompanying figures of *Foreign Trade* cover the usual information published year by year for the purpose of pointing out trade openings in foreign countries. They show as far as information has come to hand the aggregate trade and details of the principal imports and exports of such countries, thus giving Canadian manufacturers, producers and exporters as well as importers—information as to the resources and requirements of such countries, enabling those wishing to extend their business to judge as to whether and where there are openings for their particular lines, or where if they wish to import they may be able to purchase the goods they require.

There are unlimited openings for trade still unexploited by Canadians which with the fast increasing facilities for communication could well be taken advantage of with profit while still retaining grasp on what has already been secured. Energy backed by enterprise and capital could easily add an enormous increase to our trade figures, and it is to be hoped that the voluminous information published from time to time by the Department will assist materially those in position to take advantage of opportunities offering, to extend and increase their foreign trade in proportion to Canadian progress in other ways.

Respectfully submitted,

W. G. PARMELEE,

Deputy Minister.

COINAGE, WEIGHTS AND MEASURES

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce ($437\frac{1}{2}$ grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the 'Imperial Gallon,' contains 277.274 cubic inches, or 353.036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word 'Metric' being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver bullion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs .801 of an ounce, its fineness is .900, therefore $75 \times .801 = 60.075$ which $\times .900 = 54.0675$, or a small fraction over 54 cents, and the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard*; thus for instance on a certain day the London quotation reads 'fine silver per ounce standard 32 d.,' while on the same day it is quoted in New York '69½ cents per ounce fine;' as 32 d. is equal to a fraction over $64\frac{7}{8}$ cents, there would appear a difference of about $4\frac{5}{8}$ cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York "fine" to London "standard" (of .925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about $\frac{5}{8}$ of one cent per ounce, the London price being that much in excess of the New York.

SESSIONAL PAPER No. 10*

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

*Old weights and measures sometimes used. The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1.113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese monmes, or 579.72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3.61 grains from the weight usual (say 1½ oz. per tael) in dealing with the weights other than those of gold and silver. § Usually reckoned same as Chinese Picul of 133½ lbs. ¶ This is long measure. Cloth measure is 25% greater in length than long measure. Therefore by cloth measure 1 sun=1.4916 in, 1 shaku = 14.916 in. and 1 jo = 149.6 in.

(a) The returns of the Exports to Norway in the years 1898-1901 are incomplete, owing to the abrogation in 1898 of the special law (Mellanriholagen) regulating the trade between Sweden and Norway. In 1902, however, complete returns of rail-borne Exports to Norway have been obtained.

ARTICLE II.

Every reduction of Customs duty granted by France to any foreign country whatever on any of the products enumerated in Schedule A shall apply to the fullest extent to similar Canadian products.

ARTICLE III.

ARTICLE IV.

Every reduction of Customs duty granted by Canada to any foreign country whatever on any of the products enumerated in Schedule B shall apply to the fullest extent to similar products originating in France, Algeria, the French Colonies and Possessions, and the territories of the Protectorate of Indo-China.

ARTICLE V.

Reciprocally if any product now admitted free of duty under the Canadian intermediate tariff in Canada shall hereafter become liable to Customs duty such product when imported from France, Algeria, the French Colonies and Possessions, and the territories of the Protectorate of Indo-China shall enjoy the benefit of the lowest rate of duty applicable to a like product when imported from any other foreign country.

ARTICLE VIII.

ARTICLE IX.

For the purposes of the foregoing articles Canada and France may require that the products be accompanied by certificates of origin or declarations made in conformity with the laws of the respective countries.

If the Canadian Government or the French Government deem it necessary to have such certificates or declarations *visés*, they may appoint or designate for such purpose officers who shall give such *visés* free of charge.

SESSIONAL PAPER No. 10*

ARTICLE X.

Canada and France undertake not to establish one against the other, any prohibition or restriction of importation, exportation, or transit, which shall not at the same time be applicable to other countries.

Provided however that Canada and France reserve to themselves the right to establish in regard to products originating in or destined for the one or other country any temporary prohibition or restriction of importation, exportation, or transit, which either of them adjudges necessary to protect the public health, to prevent the spread of animal disease or the destruction of crops, or in view of the events of war.

ARTICLE XI.

Except as regards tariff provisions Canada and France accord to each other reciprocally the most favoured nation treatment in everything relating to importation, exportation, re-exportation, transit, warehousing, storage, transshipment, consumption, fulfilment of Customs formalities, and in general to everything relating to the pursuit of trade and industry.

These provisions shall not apply :

1° To privileges which have been or may be granted to bordering states for facilitating frontier traffic within a limit not exceeding fifteen kilometres on each side of the boundary.

ARTICLE XII.

Products of Canadian origin of any kind imported into France, Algeria, the French Colonies and Possessions, and the territories of the Protectorate of Indo-China, shall not be subject to any other or higher duties of excise, internal consumption or octroi than those which are or may be charged upon like products of French origin.

In like manner, products of any kind originating in France, Algeria, the French Colonies and Possessions, and the territories of the Protectorate of Indo China, when imported into Canada shall not be subject to any other or higher duties of excise, internal consumption or octroi than those which are or may be charged upon like products of Canadian origin.

ARTICLE XIII.

Drawbacks on the exportation of French or Canadian products shall not exceed the amount of Customs duties, excise duties, duties of internal consumption, or duties of octroi, collected on the said products or the materials used in the manufacture thereof.

ARTICLE XIV.

Products liable to duty serving as patterns or samples, imported into Canada or into France, Algeria, the French Colonies and Possessions, and the territories of the Protectorate of Indo-China, by commercial travellers or agents shall be admitted on payment of duty, which shall be refunded after re-exportation of such products.

This provision shall be subject to the conditions of the law of the respective countries. The time within which the re-exportation of such patterns or samples may take place shall not exceed twelve months.

7-8 EDWARD VII., A. 1908

ARTICLE XV.

For the application of *ad valorem* duties, exporters of products originating in France, Algeria, the French Colonies and Possessions, and the territories of the Protectorate of Indo-China, and reciprocally exporters of Canadian products, may produce certificates of value issued by any Chamber of Commerce or by any other similar commercial organization. Such certificates shall be taken into consideration by the respective customs officials, in levying the duties to which the imported products may be liable, without however restricting their rights of appraisement.

ARTICLE XVI.

ARTICLE XX.

This Convention, after being approved by the French Chambers and by the Parliament of Canada, shall be ratified and the ratifications shall be exchanged at Paris as soon as practicable.

It shall come into force immediately after the completion of that formality and shall remain in force for a period of ten years, unless however, one of the Contracting Parties shall within such period signify to the other Party its intention to terminate this Convention, in which case this Convention shall cease to have effect twelve months after the reception by the other Party of the notification as above.

In case neither of the Contracting Parties shall have signified before the expiry of such term the intention of terminating this Convention, it shall remain binding until expiry of twelve months from the day on which either of the two Parties shall have denounced it.
